Re: *Special Access for Price Cap Local Exchange Carriers; AT&T Corporation Petition for Rulemaking to Reform Regulation of Incumbent Local Exchange Carrier Rates for Interstate Special Access Services, WC Docket No. 05-25 & RM-10593*

Dear Ms. Dortch:

Verizon (FRN: 0003257094) manually submits to the Wireline Competition Bureau a corrective resubmission of its data container in response to the Special Access Data Collection. In this resubmission, Verizon makes the following modifications:

- Verizon is parsing some location address records into separate street name, city, state and zip code fields in its response to data request II.B.3.
- Verizon is eliminating some location records it inadvertently reported as unique locations in its response to II.B.3 (about 0.1% of the total location records). Verizon is modifying its responses to II.B.2 and II.B.4 corresponding to the changes to II.B.3.

While making these changes Verizon learned of two other issues, and Verizon expects to make another corrective resubmission once it resolves them. Specifically, Verizon identified duplicate location records and potential anomalies in the sold bandwidth that Verizon reported in its initial response to II.B.3.

Verizon is submitting two portable 256-bit AES hardware-based data encryption storage devices manufactured by Kingston. The model is the DataTraveler Vault Privacy Edition -

DTVP/4GB, Part # 04301-160.A02LF. Each drive is labeled as specified by the FCC's instructions with Verizon's FRN and a notation to indicate the device that contains the original information and the device that is a copy.

Each of these storage devices contains Highly Confidential information as defined by and subject to Protective Orders in WC Docket No. 05-25 and RM-10593.¹

Each of these drives contains the following:

- Database container;
- The log file (SPADC.log);
- The "qc log" file (spadc_proc.log); and
- A new certification

Please call me at (202) 515-2590 if you have any questions.

Sincerely,

cc: Christopher Koves (with two portable storage devices)
